WORK EXPERIENCE

Hickory Foundation YMCA, Hickory, NC

August 2023 - Present

Wellness Specialist

- Provide a welcoming, safe, and clean environment to meet the demand of 400+ guests daily
- Instruct guests on proper machine and equipment use to meet fitness goals effectively and safely

Personal Trainer

October 2024 - Present

- Design and implement personalized workout programs tailored to clients' fitness goals, including muscle gain, fat loss, and overall health improvement
- Educate clients on nutrition fundamentals to support long-term sustainable fitness results

Grant Thornton LLP, Charlotte, NC

June 2025 - August 2025

IT Audit & Assurance Intern

- Supported audit engagements by reviewing IT systems, applications, and infrastructure for effectiveness, accuracy, and alignment with internal and external requirements
- Tested IT general controls related to access provisioning, system development, change management, and privileged access
- Documented audit findings and compiled evidence in line with audit standards and firm procedures

PROJECTS

Sorting Algorithm Visualizer (Python)

- Developed a Tkinter-based application to demonstrate sorting algorithms (Bubble Sort, Merge Sort, etc.), helping users understand data structures and complexity.

Home Networking Lab

- Designed a home lab environment built around the Cisco SF300-24 switch, configured VLANs and subnets, built NAS systems, and self-hosted streaming and server applications using Docker containers.
